DETAINES-1162
Enclosure(s): Copy of a Letterhead Memorandum (LHM), suitable for dissemination to outside agencies.

Details: In the Electronic Communication (EC) referenced above, the Behavioral Analysis Unit (BAU), National Center for the Analysis of Violent Crime (NCAVC), Critical Incident Response Group (CIRG), was designated by FBIHQ to coordinate the FBI's behavioral related support to the ongoing interview process at the United States Naval Base, Guantanamo Bay, Cuba (GTMO). In furtherance of that assignment, BAU dispatched an assessment team to conduct an on-site review at GTMO. The LHM enclosed herein, documents the results of that assessment.
The enclosed LHM provides detailed observations and recommendations regarding these areas.
The BAU has learned that the other U.S. Government entities at GTMO have also involved their behavioral units, the Naval Criminal Investigative Service (NCIS), and the U.S. Army (USA), have had their behavioral components conduct assessments at GTMO. Coordinating these behavioral efforts with similar FBI behavioral assets should be considered.

The BAU will remain available for additional consultation regarding these matters. Questions or comments regarding this EC or the enclosed LHM may be directed to the Behavioral Analysis Unit, National Center for the Analysis of Violent Crime, Critical Incident Response Group, FBI Academy, Quantico, Virginia.
