Subject: RE pls confirm

Valene,

He is not aware of any written guidance. He has, as have I, advised agents here to not participate in interrogations outside of FBI policy.

As for the second question, the memo you received is available to all interviewing agents here at FBI GTMO. No direct written guidance has to date been provided.

I think I've heard this several times, but let me ask one more time.

All information contained herein is unclassified, except hereafter otherwise.

Subject: FW reported incidents

Valene,

Per our conversation, please find attached the e-mail exchange prompted by [redacted]'s request from his SA's on Wednesday. I have asked [redacted] to hand carry to you the "A to X memo" related to approved interrogation techniques. Further, I inquired about guidance given to SA conducting interviews here, and [redacted] replied that no such written guidance exists. SA are advised to conduct their interviews in accordance with FBI policy and procedures, with the exception of the Miranda requirement. According to [redacted], he has received any evidence, that SA have participated in or observed any interviews employing "abusive" interrogation techniques. Please let me know if I can be of further assistance.

Thanks,

As you know, #1 was brought to General Hood's attention by NAE.

I consider #2, as you have reported it, unfounded and arguably not credible, based on the source.

#3 was observed/monitored by competent JTF medical authority, and as you weren't moved at the time to label it abuse, I'm reluctant to do so now.

Subject: reported incidents

Per our meeting earlier today, the following information has been brought to my attention:

1) 
Situation: I was told on or about Thursday, 22 April 2004 by [redacted] (NAE) that [redacted] whom he debriefed, had provided the following. Sometime in the second or third week of February 2004, [redacted] was taken to reservation [redacted] was on both FBI and NAE hold. He did not recognize the interviewers and when he told them he didn’t want to speak to anyone unless they were introduced by his regular interrogators, he was yelled at for 25 minutes. [redacted] was short-shackled, the room temperature was significantly lowered, strobe lights were used, and possibly loud music. There were two male interrogators, one stood behind him and the other in front. They yelled at him and told him he was never leaving here. The interrogator tried to get [redacted] to identify photos. After the initial 25 minutes of yelling, [redacted] was left alone in the room in this condition for approximately 12 hours. At one point, the interrogator came back in the afternoon to make sure he was still there. During the 12 hours, [redacted] was not permitted to eat, pray or use the bathroom. One of the interrogators was described as old/tall 50’s, grey and black hair, mustache with no beard, short, skinny, and wore a blue shirt.

My actions: verbally informed [redacted]

2) 
Situation: The following information was provided to me by detainee [redacted] in approximately January or February 2004. [redacted] was being taken to reservation or medical (something inside Camp Delta, I don’t recall what). While outside near the Brown building, he saw a young Filipino/asian female with long dark hair, short tight pants, and a revealing top. When the female noticed him, she jumped, laughed, ran around the building out of his sight. [redacted] believed that this was a prostitute.

My actions: verbally informed [redacted] advised this female fit the description of a prostitute who had previously been working out of the base beauty shop.

3) 
Situation: I observed the following in early April 2004. [redacted] was being debriefed for several hours (approximately 15 hours) by NAE. Throughout the session, periodically threw up in a trash can. At the time, I was told he had an ulcer and that the stress was irritating it. I was later advised he had a stomach virus. I was told he had been given a shot of Motrin (or something like that) by the medical staff.

My actions: Due in part to the fact that [redacted] was present and did not object to the situation, and I never heard [redacted] asked to be returned to his cell or request medical assistance, I took no action.

Thanks, LL
